When you have your portrait taken you naturally want a GOOD one; to ensure this you must go to a place where not only the best appliances and artistic skill are to be found, but where also TIME can be taken to study your features, get their most pleasing expression, the most suitable light and graceful pose.
If the photographer lowers his prices too much he cannot take the necessary time to do his work well, but must run his customers through like sheep, trusting to the NUMBER to make his profit.
A sensible person will beware of such and prefer to go where fair prices are charged and every care taken to ensure the work turning out satisfactorily; such is the case at the "Gran Fotografia Platense" whose customers never having been driven away by excessively high prices do not require to be lured back by catchpenny reductions.

TELEGRAMS

(via Galveston.)

Berlin 22nd—An article from Bismarck which has appeared in the *Hamburger Nachrister*, on the present state of the Triple Alliance as affected by home politics in Italy and the probable dissolution of its Parliament, has given rise to much discussion in high political circles in Germany. The article says that Italy, in her present debilitated financial condition, should not be forced to increase her armaments, but be asked to help the Triple Alliance only so far as lies in her power.

Paris, 22nd—After some weeks of calm and a belief that there would be no more dynamite explosions, the population has been again startled to-day by the discovery of a dynamite cartridge in the house of the Public Prosecutor who arraigned Ravachol.

London, 22nd—A telegram from the Mauritius to the *Times* says that 15,000 people perished in the recent cyclone.

Rome, 22nd—The Pope is preparing a letter to the American, Spanish and Italian Cardinals in reference to the approaching centenary of Columbus. Reference is also made in the letter to the canonization of the immortal navigator.

Copenhagen, 22nd—The Czar and Czarina have left St. Petersburg to join the Golden Wedding festivities of the King and Queen of Denmark. The Prince and Princess of Wales will also attend.

Madrid, 22rd—Government has revoked the decree prohibiting the importation of American pork into Spain.

Calcutta, 22nd—The Indian Monetary Association, which includes all classes of citizens, held a meeting in Simla, to petition Parliament to establish a gold standard, as it is impossible to obtain be-metallism.

Vienna, 22nd—A great meeting at which 167 members of Parliament and all the Municipal authorities were present has taken place here, to protest against the contemplated reform of the monetary system, and declaring in favor of the coin system.

St. Petersburg, 22nd—A serious riot took place in the Zoological Gardens, owing to the refusal of the band to play the National Hymn. Ten thousand persons were in the Gardens at the time. There was a fight in which several persons were wounded and much damage was done.

Alexandria, 22nd—A hundred thousand pounds worth of cotton has been destroyed at Minet el Bassel by a terrible conflagration.

London, 22nd—A serious affray took place yesterday in Belfast amongst the men employed in the shipyards. It arose from a religious discussion. The minority of Catholics were routed by the Orangemen. The affair caused great consternation in business circles. A large number of policemen were sent to quell the riot, and also to watch those tenement houses in which Catholics and Protestants live together.

Paris, 23rd—The new Labour Bourse was opened to-day with a numerous attendance. The President of the Municipality presided at the ceremony.

London, 23rd—The *Standard* correspondent in Vienna telegraphs that the invitation to the Monetary Conference has put the Austro-Hungarian Finance Minister on the horns of a serious dilemma, owing to the great opposition to the proposed reforms in the currency.

Paris, 23rd.—It is telegraphed from England that Queen Victoria has conferred the Order of the Bath on the Khedive of Egypt.

Copenhagen, 23rd.—The Prince and Princess of Wales are expected here to-morrow. They left London to-day, to attend the Golden Wedding of the King and Queen.

Rome, 23rd.—The Government has informed the Deputies that it is thinking of issuing 4 per cent Bonds guaranteed by the State Railway receipts.

Brussels, 23rd.—The elections to the Councils General took place yesterday, and the results show no change of any importance. At Louvain and Anderlicht there were slight disturbances.

Berlin, 23rd—A great ovation has been given to Count Bismarck and his future wife, the Countess of Hoyos, on the occasion of Prince Bismarck's visit to her.

Durham, 23rd.—After another meeting the miners here have decided to strike and submit the questions at issue to arbitration. The mine-owners refuse.

Moscow, 23rd—Telegrams from Berlin report the expulsion from Prussia of the editors Wesseletsky and Bojodaravitch, at the request of the Emperor, as they are believed to be agents of a Pan-Slavist Committee here and in St. Petersburg.

Paris, 23rd—M. Freycinet, Minister of War, has gone to inspect the Belgian frontier, where important defensive works are to be erected.

It has just been declared that the Hova Government has violated the treaty with France, by not paying the interest on the last loan for the last six months.

THE QUEEN'S BIRTHDAY.

Her Gracious Majesty completes today her 73rd year, amidst the congratulations of her subjects in every quarter of the globe. We must go back some centuries in English history if we would find a monarch so respectable sitting in the chair of Edward the Confessor, and therefore we can all the more fully appreciate the many virtuous qualities that make Queen Victoria's name respected at home and abroad. She has done much to make monarchy popular in England, nor can there be a higher example of the powerful influence that a good woman can exercise in society She has had the fortune in her reign of 55 years to see the commerce of G. Britain quintupled, the National Debt reduced by 100 millions sterling, the wealth of the kingdom more than doubled, and every field of science, art and letters enriched and extended in an unprecedented degree.

There have been indeed terrible calamities on the other hand, but they have not been the Queen's fault. The influence of the throne has been powerless to remedy the short-comings of the Cabinet. In Ireland and in India millions of human beings have died of famine: the blame must rest exclusively on the Ministers then in power.

Meantime the U. Kingdom has gained enormously within the present lifetime of Her Majesty. When Princess Victoria was born the throne was occupied by a modern Vitellius, George IV., whose orgies are matters of history. To-day we possess a monarch of whom any country may well be proud, thoroughly good, thoroughly English, although strange to say Her Majesty never speaks a word of English in the bosom of her family.

All who desire the continuation of the monarchy will join with us in wishing Her Majesty a long life, that she may continue to wear the crown that has received fresh lustre on her brow.

MAILS FROM EUROPE.

The Italian steamer Perseo has brought European dates up to April 27th. We summarize as follows:—

Paris, April 25th.—The *Figaro* states that enormous fortifications are being made in the Alps and that Italy is preparing for war. The *Eclair* foresees the downfall of King Humbert. The Italian papers urge King Humbert to leave the army alone and reduce expenditure in other directions.

Berlin, April 25th.—It is rumored that Chancellors Caprivi and Kalnocky will meet shortly at Carlsbad.

Madrid, April 25th.—The Budget-Committee estimates an increase of 33 millions in the revenue and of 20 millions in the expenditure.

Paris, April 25th.—The blowing up of the Very Restaurant is the topic of the hour. The press are indignant with the police. Very's wife, her daughter and two servants were injured by the explosion. Lerot, the waiter who denounced Ravochol, escaped in a miraculous manner. The Restaurant was completely destroyed.

The *Matin* charges the Government with want of foresight. The British press severely comment on the conduct of the French police and state that the only remidy is a vigorous enforcement of the law.

Ravachol's trial and condemnation took place on the day following the explosion. The prisoner defended himself with cynicism and when he heard his sentence he exclaimed "Vive l'anarchie! Vive la Republique Sociale! During the trial Ravachol stated that his conduct would bear fruit.

Many of the papers state that the Jury did not fulfill their duty. The *Figaro* says they were afraid.

MAILS FROM CHILE.

Valparaiso, May 7th.

We regret to announce the death, in this city, on Wednesday, of Mr. Matthew Child. He was a native of Birmingham, England, arrived in Chile in 1851, and has been engaged in business in Valparaiso for many years past as partner in the well-known firm of John Child & Son. He leaves a widow, and an only daughter, married to Mr. Dumas of Santiago. The funeral took place yesterday and was numerously attended.

Many of our readers will regret to learn the death of Mr. William Scott, F. R. G. S., formerly of Concepcion, which occurred on February 28th., at his residence, Talbot Road, Bayswater. Mr. Scott had a varied, but highly honourable career in the West Indies and Central America, ultimately settled in the South of Chile and founded the Bank of Concepcion. Since his retirement from business he travelled all over the world, and he will long be remembered as a most genial and amusing raconteur of his numerous adventures. Mr. Scott was in his 77th. year.

Among the various plans that have been mooted for the purpose of restoring the national finances to a sound condition is one for raising a loan of £3,000,000 for the redemption of the paper money, and another for increasing the custom-house tariff. While there can be no doubt that a loan of three million pounds could be raised in Europe, and possibly not under very onerous conditions, it would be a thousand times preferable for the country, by a just and proper exercise of economy, to redeem its paper money out of its own resources rather than recur to the doubtful expedient of contracting one debt, at interest, to pay off another, without interest. There are besides several expedients at the command of the Government without the necessity of having recourse to a foreign loan. There is, for instance, the sale of the State Railways, which would yield sufficient not only to redeem the paper money but to pay off the national debt. There is besides a large area of public lands in Araucania which only require to be offered for sale to find ready purchasers at high prices. In this land alone there are several millions locked up. Then, again, there are the Government nitrate properties in Tarapacá. What is to be gained by the Government holding on to these properties? All the plant is deteriorating, and will finally become absolutely worthless even as old iron.

A private soldier named Antonio Callao, belonging to the Second Regiment of Artillery, is to be shot this morning in Santiago, for the murder, on October 29th last, of a sergeant named Peña, belonging to the same company as the condemned man. The motive which led him to commit the crime was, he says, that he suspected the sergeant of having robbed him of nineteen dollars. He accused the sergeant of the theft, when Peña struck him and threatened to have him whipped. Maddened with rage he slipped a cartridge into his carabine and shot Peña in the head. Subsequently he found the money inside his mattrass.

The Health Officer of Quillota, Dr. Eduardo Solovera R., has just presented to the Governor of that Department a report on the appearance of epizootia among the cattle on a farm in that district. From this document we learn that fifteen cattle had died of the disease on the farm in question, and that the disease had been transmitted to five persons, but fortunately none of the cases proved fatal. According to Dr. Solovera, this disease is always prevalent in the months of February, March and April, and the mortality on some farms is very high. Worse still, the flesh of these animals is converted into 'charqui,' and 'statistics prove that one-half of the persons employed in this clandestine business are attacked with the disease, and deplorable cases have occurred which also prove that the flesh of carbunculous cattle, fresh or in the form of 'charqui,' and the milk of such animals is dangerous to health." The disease is the result of the entrance into the organism of an animal of a microbe called 'bacillus anthracis,' which multiplies with great rapidity and impregnates the blood and the tissues. It is calculated that in twenty-four hours one 'bacillus anthracis' produces four thousand, and in seventy-two hours the number reaches one hundred and forty millions. This 'bacillus' is the product of marshy land, stagnant water, muddy pools, &c., and "it is an indisputable fact that fodder taken from places where animals which have died of the disease have been buried will communicate the disease to cattle. An authority on the matter, M. Besnard, says hay taken from an infected field is no less dangerous than the green grass eaten in the field itself. He tells of 250 cattle which were placed in a less marshy field than others near it and which possessed running water and only one animal died; while of 250 placed in more marshy ground and where there was only stagnant water thirty-nine died in a month. The carcases of animals which have died of the disease are focuses of contagion, not only immediately after death but for many months and years afterwards." The burial of the carcases, unless at a depth of upwards of a metre, is no safeguard.

LOSS OF THE SOLIMOES.

On Saturday night the Brazilian monitor Solimoes, en route from Rio to Matto Grosso, was wrecked on the Uruguayan Coast, Department of Rocha, near Punta Negra de Castillos. The weather was calm; but the Commander, who was keeping near the coast, was surprised by a fog, and the vessel simply steamed on to the rocks. Another version is that the Commander made some mistake in regard to the lighthouses. However this may be, the wreck was a frightful disaster, as the Commander, all the officers and 102 of the crew were drowned. Only five men escaped. The Solimoes is a complete loss. There is no chance of saving anything, as she was wrecked on the most dangerous part of the coast. The Solimoes had $280,000 gold on board, which was intended to defray the cost of the military expedition to Matto Grosso.

The Solimoes was built in France in 1875. She had two turrets with 4 guns of 25 tons. She had a displacement of 3,600 tons. She was 240 feet long by 58 in breadth. She had a speed of 11½ miles an hour and her horsepower was 2,500. Her Commander was Captain Javier de Castro, a well-known officer.

As soon as the Montevideo authorities heard of the disaster, the gunboat General Artigas was sent to the scene of the wreck. Messrs. Lussich Brothers also sent a small steamer, but, as the weather was unfavorable and the sea very heavy, it is presumed that the two boats did not get farther than Maldonado. Several members of the Brazilian Legation left in the General Artigas.

The news of the wreck caused something like consternation in Montevideo, as it was thought that the General and staff appointed to direct the Matto Grosso expedition were on board. It has been observed that Brazilian vessels usually navigate near the coast, a very dangerous system, as the number of wrecks abundantly proves. About the same time that the Solimoes was wrecked, another Brazilian vessel laden with yerba for Montevideo was lost off Garzon. Of this last disaster no details have so far been received. The Solimoes was considered to hold the third rank in the Brazilian fleet.

The *Nacion* alludes as follows to the disaster:—

"The warship Solimoes was an ironclad monitor of the old model. It was purchased by Brazil from the British Government about 18 years ago, together with the Javary, which was more or less of the same type. The Solimoes, owing to its little elevation over the water line, could not navigate with safety in a heavy sea and was therefore usually stationed in the bay of Rio. She was merely a formidable floating battery, a circumstance no doubt that prompted the Government to send her to Matto Grosso to quell the revolution there. Her Commander was Captain Xavier de Castro, a distinguished officer. Up to the last moment it was thought that another officer would be sent in command. There were 31 other officers on board, all members of leading Brazilian families.

"The Solimoes was lost in a fog between a small island called Polonia and the coast. All the officers were drowned, and of the crew only five succeeded in escaping. The disaster occurred at 8 p.m. off Punta Negra de Castillos."

We may add to the foregoing that, according to a telegram received last evening, the five survivors owe their escape to the following circumstance:—When the Commander perceived he was out of his reckoning, he ordered a boat to be lowered and sent ashore to obtain information in regard to the exact situation. The five survivors entered the boat and rowed ashore. A few minutes after the departure of the boat, the vessel struck and was soon a total wreck.

A BRIEF ACCOUNT OF TIERRA DEL FUEGO.

(For the STANDARD, *Buenos Ayres.)*

(Concluded)

Their language, described of old by Captain Cook as the sounds a man makes in clearing his throat, is certainly very harsh and broken in utterance, and whatever may be its structure its pronunciation is very difficult to acquire.

The Ona are very few and rapidly lessening in numbers owing to the havoc they make among the flocks, horses and cattle of the settlers, and the gold miners also have killed numbers of them. Unless the Government intervenes on their behalf they are doomed to a very speedy extinction. The Ona have no canoes and are strictly a hunting tribe. They have not acquired the habit of riding horses. The ostrich is not found south of the Magellan Strait, neither is the deer of Patagonia, nor the skunk. The land is being surveyed by Government, specially from San Sebastian and Cape Peñas, at which latter point is the fine river, Rio Grande, which is said to offer good harborage for small vessels. In this part the grass camps are said to be of the best quality. A great belt of mountain forest land borders this Ona prairie-land on the south, and on the west it reaches across to the waters of the Magellan Strait and their branches. It is a district whose area is more than double that of the Falkland Islands, with no waste moorlands, which occupy so large a part of those islands. The bird life of this prairie district is far more abundant in geese, ducks, widgeon, swans, flamingos, teruterus and other land birds, some of which are never met with south of the mountain barrier bordering this country. These mountains form a deep belt of high ranges, abounding in extensive glaciers and snow fields, while their lower slopes are covered with dense woods. The bottom lands are waste water-flats, a region quite impassable for the most part for horses. Guanacos frequent the high lands near the limits of the snow level in summer to rear their young, but towards winter are driven by the increasing snow and frost to seek food and shelter in the lower lands, and it is at this season they fall a prey to the lances of the canoe Indians of the south. These are called Yahgans and differ greatly among themselves in every physical point, as to stature, complexion, physique, hair, color of eyes etc. Of course there are not found the great differences of color as in the mixture of fair and dark races, yet as above stated the differences in features, build, complexion, etc. are considerable. The differences of language in Yahgland are very small, all being able readily to understand each other. The differences existing are in intonation, and in regular channels of change as well as in the use of different words in different districts. Of course each party consider their own way of speaking the proper one, and laugh at their neighbors for their oddities of speech.

The Yahgan language is soft and fluent, having a great wealth of sounds in which vowels predominate. It is an inflicted language and agglutinative, resulting in long words, which, however, include much in their meaning. But short words are plentiful enough. The language abounds in prefixes and affixes.

The Yahgans, like all similar tribes, had no written language, and their minds never having been directed to such subjects, they had no knowledge of the nature of the language. Thus for instance a man could speak a sentence but he could not give it to you word by word nor syllable by syllable.

It has been briefly and accurately written by the writer of this paper, in a phonetic alphabet, founded on that of Alex J. Ellis, which goes on the natural plan of a letter for every distinct sound, which letter always represents the same sound. Thus the number of sounds met with in the language represent the number of letters used in writing it. The above sentence written "á la Yahgan" would stand thus:

"Dus de uumbz ov wurz met wid in de laygij reprizent de numbz of letez úzd in rjtuj it."

There can be no uncertainty in reading words in any language thus written by anyone who has acquired the easy task of mastering the alphabet.

The Alaculoof tribe in the west and central parts of Fireland is a kindred tribe to the Chonos found south of Chiloe and reaching to the Magellan Strait. Their language abounds in the sound represented in Welsh by ll which is so difficult to utter by most people. There is no reason to suppose it to be inferior to Yahgan in number of words and regularity of composition.

The Alaculoof, speaking generally are of more vigorous growth than the Yahgans but not equal to the Ona. Like the Yahgans they use canoes and their weapons are the same, comprising strings, lances, of different kinds, for different purposes, bows and arrows, throwing sticks and clubs, and their mode of living identical.

The east and south east of Fireland is auriferous, but gold mining is only found to pay on the shores. Large quantities have been obtained during the last 5 years from Sloggett Bay, Lennox Island, New Island, the east and south of Navarin Island, Picton and New Island and the shores east and north of Sloggett Bay. Also from San Sebastian Bay down to Thitis Bay on the east coast of Onaland. But the future of Fireland depends more on its pasture than its gold, and its woods also are very important on account of the immense extent. It would appear that copper exists in the central parts, and slate may very likely prove a valuable source of industry. Fish also are plentiful, such as smelt, large mullets, sprats of two kinds, and various valuable fish which prey on them. Also rock cod, gaigis, syoonna, and other kinds more commonly used by the natives. The chief drawback to Fireland is its climate, even in the best parts, owing to the frequency and strength of the winds, the sudden changes of weather, the small amount of mean heat, and the frequency of frosts, even in summer. The winter cold is not great, yet owing to the general low temperature its effects are cumulative, in penetrating into the soil and the water, which latter in lakes is frozen to a depth of more than a foot, and when once frozen remains so till September, say for three months and over. The period of muddy weather in spring and more or less off and on through the autumn and winter proves a great trouble in all farm work. In summer and spring on the other hand it is often too dry. The frequent, partial thaws and after freezing in winter results in a general state of ice on all the lower lands, rendering walking difficult and risky. The falls of snow, intermitted with days of rain and thaw, result in an over-state of slush and wet, which is very disagreeable.

The miners in South Fireland, now about 300, are chiefly Austrians from the Adriatic, an industrious set of men. Many of these and others have met with great success, and after a few months work have returned home with some thousand pounds or more in their pockets. The gold is only sought for on the shores exposed to the wash of the sea, which carries off the larger part of the clay, and continually sifting and washing the debris of the cliffs, the gold is found on the bed-rock or clay. This must be reached, howsoever deeply covered by shingle clay and sand, before the workers meet with the gold.

The difficulties the miners meet are chiefly from the frequency of bad weather, which render their work trying and travelling difficult. To reach the gold districts the miner must take passage by one of the many lines of steamers for Sandy Point in the Magellan Strait, whence he can find casual opportunities by cutters, schooners and Argentine steamers by which he can reach the gold works. These are likely to prove of interest for years to come, as the beaches containing gold are many and extensive, and in all probability the deep valleys among the numerous hills will prove equally worth working as similar sites in the north of Onaland and in South Patagonia. But I speak with no certainty on those subjects, being guided only by what I have seen and heard.

Of course there are great risks of loss as well as gain in the miners' life, and the winter in Fireland demands good clothing and ample food to enable men to bear it, and not a few of the miners have lost their health and been sadly crippled with rheumatism. No gold has been found in central and west Fireland, though different parties have spent much time in seeking it.

In this short sketch I have striven to state the truth only, as I should be very sorry to mislead any, either by too bright or too gloomy accounts.

Thomas Bridges.

PROVINCIAL NEWS.

The new Chief of Police in Cordoba has begun business in a very energetic way. He has dismissed no less than 30 police employees, including several commissaries, and appointed others in their stead. The most remarkable feature about this business is that the newly appointed employees are Radicals. This attitude of the Chief of Police following so close upon the heels of the Governor at the recent banquet, at which H. E. shocked all the Nacionales present by the freedom with which he expressed his political opinions, has given rise to much comment. The Cordobese 'Nacionales' now feel sold, a very disagreeable feeling which Lafontaine has admirably described in his fox taken in by a hen. Things are by no means settled in Cordoba. According to the latest advices the new vice-governor and the new ministers are going to send in their resignations. In the meantime the official organ publishes every morning columns of congratulatory telegrams and messages to the new governor. The ex-chief of police is coming down to Buenos Ayres. He has completely broken off relations with Governor Pizarro, who is evidently determined to have it all his own way.

Advices from Santa Fé state that a numerously-signed telegram has been forwarded to the Foreign Affairs Minister, congratulating him on his energetic attitude in the Metzlaff case, and expressing the hope that the Minister does not consider the Santa Fé Government to be the reflection of the sentiments of the Santa Fé people.

Our Rosario exchanges contain nothing very startling. Another horrible murder was committed on Thursday night, the victim, being a boy of 14. The murderer was caught. Three forgers of notes have been arrested. The London and River Plate Bank, in answer to a petition from the settlers of Rafaela, states that it cannot open a branch in that colony.

According to yesterday's telegrams, all the hotels in the thriving town of Esperanza, in the settlement of the same name, are full of visitors, invited to assist at the Agricultural Congress there. The Congress, we understand, opens to-day. The most prominent men in Santa Fé take part in it. This is an event which deserves more than a passing mention, since it points to the energy and common sense of the settlers. Esperanza was the first colony started in Santa Fé. It was founded in 1856 by Mr. Aran Castellanos, and it is to-day the first settlement in Santa Fé. The settlers are all prospering. They have newspapers, theatres, hotels, clubs and public buildings of note, and they now head the agricultural movement of the province by convening an Agricultural Congress, which must be productive of excellent practical results for the province and the country. The settlers of Esperanza are the vanguard of Santa Fé progress, and it is perhaps their energetic attitude which has caused the Provincial Government to desist from enforcing the grain-tax in spite of the orders of the courts.

QUILMES TRAIN SERVICE.

Sir,

Being a houseowner, I am very glad to see some of my neighbours ventilating, through the medium of your paper, the grievous fact that the E.R. Co. compels us to put into practice the proverb "early to bed, etc."

Not being all hermits thoroughly imbued with the literal truth of that proverb, we cannot agree with the classical scholar whom the E.R. Co. is so fortunate to have as an advocate, who does not hesitate to have his "cacœthes scribendi" to proclaim himself (luckily not his letter) impartial.

This "Impartial" advocate evidently owns no houses vacated by charitable tenants, who went to the dramatic performance in the Opera House and are going to-night (Monday) to the grand concert of the Boys' Orphanage and who go three or four times a month to evening entertainments and hence cannot live on this railway, because a midnight passenger train on the E.R. does not pay, or would disturb "the peace and repose" of "Impartial" or perhaps of the baby, although the ballest train has not yet done so.

Since the ringing of the curfew became obsolete and "Impartial" was born, the Dutch in Capetown made a bye-law that all street lamps should be extinguished at 9 o'clock, considering that everybody out after that hour was out for an improper purpose—is this the opinion of the "Impartial" advocate and of the Administration of the Ensenada Railway?

No impartial man ever denied that the first duty of a manager is towards the shareholders, this is well done by increasing the number of season ticket holders, as does the manager of the G. S.R. by running a midnight train as far as Burzaco for the convenience of some thirty passengers (not hermits nor Dutch) residing in the suburbs.

This property holder hopes that "Quilmero's" suggestion, that the Directors be approached with the view of persuading their representative to experience "the peace and repose of" the "rus extra urbe" and then destroy them, will be carried into effect with a favourable result for the ticket and shareholders, but at present regrets subscribing to the A.D.C. in vain, or having to subscribe to hotels for a night whenever so charitably disposed as to go to benefit entertainments, but it is more annoying still to be the owner of (in Quilmes) to the gain of southern suburbs,

Three Empty Houses.

NECOCHEA.

Mr. Editor,

I see by your issue of the 15th inst. that "the Railway is finished to Quequen" etc. May I ask, Sir, if this is the line supposed to run to Necochea and for which a concession was granted, and if so, why does it stop at Quequen, where there is not a stone upon a stone, unless indeed you except the immense "tosca" beds which abound there, while Necochea is quite an important town, having its church, schools, clubs, hotels, fine business houses, town hall, plazas, etc., etc. By answering the above you will greatly oblige.

Yours truly,
Necochea.

ED. NOTE.—We thought Necochea and Quequen were the same place.

RUN OF THE SCOTT.

May 20th

Mr. Editor,

I have seen your notes on the fast run of the S. S. Scott.

Also notes of *S. American Journal* as to difference between distance of Cape Town and Montevideo. Montevideo to Southampton is a little over 7,000, Cape Town to Southampton is about 5,970 miles; here you see a difference of over 1,000 miles.

RAILWAY ITEMS.

The Inspector-General of Railways has forwarded to Government a report on the works of the Bahia Blanca and North-Western Railway. We gather from this report that the works were begun in September 1889, that is, six months before the contract time. According to contract the line is to be completed within six years from date of Government, that is in September 1895. The company have already opened to traffic 205 kils. of line; the total length of the line will be 1185, which the contractors have yet time to finish within the contract time. The works have been suspended for the present, owing to the crisis. The Inspector-General states that the concern has not violated any of the conditions of the contract, so that it is possible the Government will pay the guarantee due for the last half of 1891. The amount is $87,832 gold.

A contemporary supplies the following:—

"Mr. Walter Congreve, who was formerly well known in this market as the senior partner in Congreve and Norton; has arrived by the R. M. S. Elbe. Mr. Congreve is only amongst us for a 'paseo,' and returns again shortly to Europe.

"A telegram has been received announcing that at the Central Argentine Railway meeting in London Messrs. J. W. Batten and C. P. Ogilvie were re-elected on the directorate. Mr. Lawrence Hayworth, on the other hand, is no longer a member of the Board."

The Argentine Great Western made a trial last month of some coal sent from San Rafael, Mendoza, by Dr. Salas. The coal was used for feeding a large engine, which worked the whole day, consuming a little over half a ton. The trial was considered very satisfactory.

Engineers Ringuelet, Huergo and Noailles, the arbitrators named to decide the questions between Government and Lucas Gonzalez & Co., have claimed £4,000 stg. each as their fee, Government has decided to give them $50,000 paper each!!!

EDITOR'S TABLE.

Her Majesty the Queen is 73 years of age to-day, and her subjects in the River Plate, of all races and nationalities, yield to none in the sincerity of their wish that the Grand Old Lady may see many happy returns of the day.

The Senate got up a quorum at last yesterday, and President Pellegrini will open Congress to-day at 1 p.m., with the usual ceremonies. The Senate named General Roca its President by 11 to 4 votes; and the following senators were sworn in: General Roca for Tucuman, R. Igarzabal and Mariano Varela for the Capital, and Barbeita and Mendoza for the province of San Luis.

There are two steamers for Europe to-day, the Sud-America and the Las Palmas, and the mails for both close at noon at the General Post Office.

When President Pellegrini was leaving the Government House yesterday evening a tram car ran into his carriage and smashed it, but H. E. escaped unhurt.

We have been favoured with a copy of the *Monetario Americano*, illustrated. It gives engravings of all the medals and coins struck on this coinless continent since Columbus discovered it. It is a very interesting work.

Paysandu and Chiquito de Eibar are down for a special game at the B.A. Fronton on Thursday next.

Mr. Domingo Shoo, while taking a ticket at the Once station on Sunday, was robbed of a scarfpin worth $1000. We thought that the crisis had not left a pin worth half the money in the whole country.

The Ferrari opera company debuted on Sunday night in Aida to a house crammed with the elite of society, amongst them the President of the Republic, General Roca and other prominent persons.

An Association Football match between Barracas Band of Hope and the St. Andrew's 2nd. XI, will take place on the old Caledonian Ground behind Sola Works on the 25th. inst. The following will represent the St. Andrew's: Goal, Schaefer, backs, Anderson and Wilson; ½backs Wilson, Cobby and Frost; forwards; Sceerey, R. Brooking, J, Bridge, Captn. Perkins and J. Bridge. Kick off at 2.00 p.m. Referee J. W. Plant.

Pressmen gathered in strong numbers last night to visit the San Martin Theatre which Messrs. Ghiglione Bros. have erected on the site of the old one in Calle Esmeralda, between Cangallo and Cuyo. The new theatre is a credit to the owner and the architect. The hall last night, lit up by numerous electric lights, including two arc lamps, presented a magnificent appearance. It is certainly a great improvement on the old hall, which was altogether too much in the elliptical form. There are 500 seats in the pit and some 86 boxes which are neatly painted and papered. What most attracted attention last night was the ceiling, which is a veritable triumph of art. It is a series of allegorical designs; in the centre there is a large crown lit up by electricity. This ceiling is the work of Signor Savigni, who is certainly to be congratulated on the work. The theatre, in a word, is a little gem. It is provided with every modern improvement, and the owners have built an egress from the stage to Calle Cuyo. Messrs. Ghiglione Bros. have fulfilled their promise of finishing the theatre before the glorious 25th, for Signor Tomba's Operette Troupe, the best seen here within the last decade, make their debut to-morrow night in that charming little Operette, Rafael é Fornarini.

Owing to the death of Mr. Olmi's mother, his rooms will be closed to-day. The remains will be taken to the Recoleta this afternoon at 5 o'clock, from 1561 Santiago del Estero.

A social meeting will be held this evening at 8 o'clock at the Scotch Church to present the Rev. J. D. Moir Porteous, B.D., with a testimonial before his departure from Buenos Ayres.

General Canto, the victor in the recent civil war in Chile, arrived here on Sunday and intends to remain for a fortnight. We salute the gallant and distinguished soldier, who has had hosts of visitors since his arrival.

There were some queer political rumours from Rosario yesterday about the Presidential election, but nobody seemed to attach any importance to them. The Santa Fe Government is at last moving in the Metzlaff question, but its organs in the Press continue to heap abuse on the President and his Minister of Foreign Affairs.

Beware of pick-pockets in the tramways. An esteemed English subscriber, when going home to dinner on Saturday evening, had $110 adroitly picked from a bundle of $200 in his right pantaloons pocket by a seedy-looking individual who was standing beside him on the platform of the car. He had $500 in the left pocket, but they escaped intact.

The Supreme Federal Court has just decided that bills or I. O. U's. given for gambling debts are worthless and cannot be enforced at law. Take a note of this, gentlemen gamblers.

There were a great many robberies on Sunday. A follower of Saint Crispin is $3.500 poorer than he was on Saturday, and other worthy citizens are groaning over small hurt—Ohs!

The Bazaar for the German Hospital to open on June 4th, at the corner of Calles Piedad and Artes, will be a grand affair. The programme is big. There will be stalls for refreshment, tombola, horse-racing, rifle shooting etc. etc., and a separate saloon for amateur theatricals and concerts. Gifts for the stalls can be sent to the locale mentioned, or to the residence of Mr. Mantells, at No. 1051 Victoria.

The following paragraph from "Engineering" of 22nd ult. sets at rest the dispute about the speed of the canny Scot:—

"The Union S.S. Co.'s new twin-screw steamer Scot, which left Southampton on April 2nd with the outward Cape of Good Hope and Natal mails, arrived at Cape Town at 3.25 a.m. on Monday, the 18th inst., having made the fastest passage on record, viz., 15 days 1 hour net steaming time. The average speed was 16.6 knots per hour."

To-day is the anniversary of the battle of Tuyuty (for the benefit of Britishers whose Spanish is defective, and Cæsar's legions were nothing in numbers compared with them, we beg to say that the word is pronounced Too-you-Tea (no toast)), the bloodiest engagement in the Paraguayan war. Thousands of heroic Argentines bit the dust on that memorable and disastrous field. There is a grand review to-day at Palermo, to celebrate the date.

We have to thank Mr. Jose Ma of 850 Calle Peru, for a sample of brandy, Devoisy brand, for which agent in this city. We strongly commend the public to lose no ti trying it this frosty weather, if wish to impart a generous glow to anatomy with a tumbler of b punch.

Amongst our Paraguayan exch we note that Mr. Peter Freund C. publishing a series of articles o Paraguayan Chaco, in *El Eco de la pana*, of Villa Concepcion.

We were favoured yesterday wit following telegram from the best-kn auctioneer in the republic, Mr Alej Miñano, of Salta. (Our ivory-har friends in this city must not feel jea they have only to call at our offic gaze on Mr. M's. photo in our P Gallery, to admit that we are right). well favoured friend wires: "The p and commercial community of Sal mortally wounded in their tend susceptibilities by the report o spector Pondal, which hits the honourable personalities in this t Uriburu, Arias, Munia, Mald Viera, and others, who have sig vigorous protest, which I wired y day in vindication of the honour province. *A Miñano.*"

Through a printer's error, the ture of Mrs. Mullally, Hon. Sec. of the Boys' Orphanage Committee, omitted from the report published issue of Sunday last.

We congratulate our highly est contemporary *The Review of the Plate*, on having dropped the "*Financial*" from its title. There been too much finance in the Arg air for years past, as our dear L friends know to their cost. The s thing in the last number of the R is a letter from "A Baring Guar on the "Argentine Position in Lon It is written from a money-losing of view, and the B. G. confesses th personally, "feels very wearied way in which the Argentine Gov ment deals with its creditors." Inn B. G! Don't get tired yet, old as there is rather a long stretch of still before you. And you don't "see" any money is to be raised in Europ a Bank of the Nation unless an I national Control were given finances," etc. etc. Internationa dlestick! Would you like the Mo security for another Moratorium so, you have only to give Dr. P hint. Adios B. G! Hasta el fin And then look out for snakes.

We notify those who wish to a copy of the Revd Mr. Bryges' v teresting article on Fireland, that be republished in our next Packet tion.

The Senate in Rio has voted a ge amnesty for all political offenders expect to see a Senate nearer h the same thing before very long.

Those deeply interested in the A American Society should take that a General Meeting will be held Sunday, 29th inst, at 9 p.m. See ad tizement in another column.

There is some very amusing re in the last number of the *Crutch*, the woodcuts are well up to their high mark.

Most people here now seem "Sorrow's crown of sorrow" on of their hats when a trip to E is mentioned. The Elbe took a fe voured beings yesterday: but wh forget the exodus about this time years ago, when the country was topmost crest of the treacherous of the 'crisis of progress?' It was paratively as great as that referre follows by the *Tribune* of New Yo the 10th of last month: "The a exodus to Europe of American to appears to have begun. For ever of the five big ocean liners which from this port yesterday was fi to its utmost capacity with trav bound for the Old World. Each ceeding year this migration begin lier, and although the winter sea scarcely at an end, the offices various steamship companies are al besieged by those anxious to secu commodation for a trip across th lantic. The agents report steamship leaving New York dur next ten weeks for Europe has a its full complement of pa booked, and predict that the nu American visitors to the other si season will surpass that of any vious year."

Don't forget that the Southern way is issuing cheap excursion during the May Fetes. See tizement.

Our valued, esteemed and meek-mannered contemporary the *tevideo Times* qualifies the acco "Mr. Cleary's Adventures" whic extracted the other day from the *York Herald*, as "gloriously dacious"!! These words are vig and we must confess to having detected considerable "verbal racy" (Mr. Gladstone's way of pu thundering "crammer") in the art question; but, as we have often had occasion to remark, our cousins in the North like bo news and their canvas-back "high."

Hayward's Paste Dip
The best test of a Sheep Dip

PRACTICAL RESULTS OF USING A RELIABLE DIP WHICH CURES THE SCAB AND IMPROVES THE WOOL.

The following testimonial is received from Messrs Ronald & Rogers, the celebrated Brokers for River Plate wools at Liverpool who sold a number of lots of wool from some of the largest Estancieros in the River Plate.

COPY TESTIMONIAL

Telegraphic Address—Ronald, Liverpool, Exchange Chambers, Bixteth Street, Liverpool, 19th Feb. 1892.

Dear Sirs—
Amongst the River Plate Wools which we have sold here this season, our attention has been called to several clips which had been treated with Hayward's "Paste" Sheep Dip, and we have pleasure in testifying to the *freedom from scab, and handsome lustrous appearance of these wools, which we consider materially assisted in their obtaining such very good prices.*

ON 'CHANGE.

Monday, May 23rd.

The gold market opened very weak this morning, in spite of the bullish anticipations of the majority of operators. About seventeen thousand ounces changed hands at the first ring: the price opened at 54.50, rose to 54.60, fell steadily, and closed heavy at $54, say 231½ % premium. Sovereigns were very dull: five hundred only were sold at $16.80 to 16.75, say 232¼ % premium. The fall in gold was unexpected, as all the currents of the speculation pointed to a rise.

Patriotic Bonds were active and firm: about two hundred and fifty thousand were sold, closing at 63 for cash and 63.10 for to-morrow and the end of the month. Internal Bonds were firm at 57 for cash and 57.20 for end of month. The subscription lists of the Banco de la Nacion will again be opened on 6th prox. till 20th prox.

Shares of the Banco de Italia y Rio de la Plata were firm at 80 gold; those of the Spanish Bank advanced again to 110. La Plata Cedulas were dull.

Exchange was more freely offered to-day. Owing to the departure of the mail, business was small. The firmness in rates shows a slight improvement. Discounts are easy.

The following is a summary of the business effected in stocks and shares at the first ring to-day:—

Mr. Alfred Gath took leave of his friends to-day. He leaves for Europe for a short vacation after many years' steady work in his firm of Gath and Chaves. His many friends expect to welcome him back before the end of the year.

It was announced this evening that telegrams had been received from London announcing that the reorganization of the English Bank of the River Plate was a "fait accompli." The Bank, will therefore, resume business in July, at the expiry of the moratorium.

Advices from Bahia San Blas announce that the British iron barque Chilian, of the Donaldson line, was wrecked off the North East Bank in very foggy weather. The master and ten of the crew landed in a boat off Punta Rubia, where Colonel Martin Rivadavia erected a tower; the beaching of the boat was a feat, owing to a treble line of breakers. Another boat landed with two sailors near the Bay at Rubia Head. Two of the crew were drowned as a boat was lowered from the vessel. Owing to the position of the barque on the point of North East Bank she may be considered a total loss; a very heavy sea always breaks on the bank even in the calmest weather. The crew could save nothing from the wreck, which was bound for Iquique with a cargo of patent fuel. The ship's instruments must have been very wrong to account for the deviation of course.

The following statistics of the Neuquen territory will be found interesting:
Population, 15,744 souls.
Agriculture, 1573 hectares of wheat, 279 do various.
Stock—

	Head.
Cows	82,010
Horses	15,690
Mules	1,320
Sheep	115,185
Goats	16,164

Exports to Chile in 1891:—

Wool	8,135 kilos
Cheese	6,685 "
Sheepskins	13,400 no.
Cow hides	1,197 "

Exports to Chile embrace about one-third of the exports from the territory.
Prices in Chile:—
Hide, $3.00.
Sheepskin, 0.50.
Wool, $20 per 46 kilos.
Cheese $25 do do.

Silver ore is found in large quantities all over the territory. Gold is found between the Neuquen and the Barrances, principally at Magel-Mahuida. Platinum has also been found. Coal and petroleum are also to be had in large quantities.

The Geologist Dr. Zuber, accompanied by Dr. Salas, visited two months ago the coal mines which the latter gentleman discovered in the Cordilleras to the West of San Rafael, between the affluents of the rivers Atuel and Diamante. Dr. Zuber reports that the layers of coal are numerous, varying from a width of a few inches to one metre and more superficially. At the Elvira mine the layer acquires a width of four metres at a very small depth from the surface. The coal is imbedded in conglomerate and sandstone. Dr. Zuber thinks that the coal deposits stretch far south to the Neuquen.

Deputy Martin Meyer has applied to the National Government to give orders to continue the construction of the wharf at Gualeguaychu. Fifteen thousand dollars have already been spent on the job. Engineer Barabino has reported in favor of Dr. Meyer's petition. It appears that the Government issued orders to-day to continue the wharf.

The business in Cedulas has fallen away to nothing; no buyers, and the few sellers have always to accept a few cents under the mark to do a business. The great movement in the stock last month caused by the paying off of mortgages has ceased; brokers all complain of the great falling off in the Cedula business, and it looks as if soon it will be on a parity with that of the unfortunate Banco Constructor de la Plata.

The notice from the Caja de Conversion for the subscription to the Banco Nacion Argentina has caused a rather better demand for the Emprestito 1891. It seems from the notice that as soon as the list is filled the subscription list will be closed. It seems probable that the first series will be all taken up now, when the new Board of Directors will be elected.

The Paraguay, of the Chargeurs Reunis, has arrived at Montevideo with forty first-class passengers and a heavy cargo of sugar from Havre.

Telegrams from Montevideo announce the arrival of Mr. Noetzlin in connection with the Uruguay Bank scheme.

The gold market rallied at the second ring and the premium advanced very rapidly. Ten thousand ounces were sold for to-morrow; the price opened at 54.10$, fell to 54, rose steadily and closed at 54 50$, say 234¼ % premium. Little or nothing was done in sovereigns, the rate remaining at the closing price of the morning. Brokers stated this evening that very little produce gold was thrown on the market this morning; the improvement in exchange rates was too insignificant to make a lasting impression on the speculation. Patriotic Bonds were steady at 63 and Internal Bonds at 57. Old Gas shares were quoted at 83.

The following is a summary of the business effected in stocks and shares to-day at the second ring:—

CHARLES OLMI
One of the most
NOTABLE SETS OF FURNITURE
In the country.

A splendid collection of oil paintings by Armenife, Bochini, Carcano, Coleman, Mancini and other artists of universal fame.

A small collection of fire-arms, the remains of the most notable one ever seen in this country

Carpets, chandeliers, curtains and furniture for bedrooms, drawing-room, study and dining-room, all of the costliest kind. In fact, they must be seen to be fully appreciated. The articles are more comfortable than regal; more varied in style than elegant, and are characteristic of the great man to whom they at one time belonged. Everything is rare, original and eccentric.

On Tuesday May 24th
at noon sharp

I will sell at public auction by order of the owner, Don Eduardo Perie, the splendid collection of furniture that formerly belonged to the late Dn Jose Paul y Angulo, and which will be sold in the house in which the lamented politician lived.

VENEZUELA 655 (altos)
(between Peru & Chacabuco)

The house will be open for inspection from Saturday 21st inst., so that those interested can inspect its contents at their leisure. As it is quite impossible to give complete details in this advertizement Catalogues containing them will be published.

I strongly recommend this exceptional household furniture; everything is good and in excellent preservation.

There is a magnificent drawing-room, three bedrooms, plated ware, glass etc etc.

It is necessary to see this residence of the deceased Spanish Revolutionist, at 655 Venezuela.

The auction will take place on
Tuesday the 24th of May
at noon

TEA
LA MAGNOLIA
INJURIOUS TEA DRINKING.

In the "Daily Post" of September 2 appears a leading article—evidently from an analytical expert—showing that after 15 minutes "draw," Indian Tea yields 17·73 of tannin, while from China comes only 7·93. What this means few know, but those troubled with indigestion may realise in part by use of True China Tea for one week.

GUARANTEED PURE.

CAUTION!!
Owing to the growing popularity in the market of the
celebrated Usher's Old vatted
"GLENLIVET"
SCOTCH WHISKY,
the same thing has occurred as in previous cases of known whiskies, namely, it is found in a few instances that unscrupulous people have tampered with the already used bottles. As Connaisseurs well know the distinct flavor of the "Glenlivet" mark, it is requested that consumers will "ask for it—and see they get it," and should any doubt exist. A true sample can always be obtained from the Sole Agents: C. English and Co., 186 San Martin.

CHARLES OLMI

An imposing and dazzling set of household furniture. A fortune invested in furniture, chandeliers, carpets, oil paintings, bronzes and statuary.

There is no precedent in this republic for the auction that is about to take place. The well-known firm of Krieger in Paris made all the furniture, under the ablest direction, for a foreign diplomatist, and it is simply above all eulogium Words are impotent to give an idea of what such furniture really is. I cannot find words in the Dictionary that would do it even faint justice. The owner of this grandiose lot prefers sending it to my Mart to be sold, so that the public can freely and fully examine it; and I have been compelled to arrange and decorate my premises to do honour to such costly household articles.

This unsurpassable lot of furniture can be thoroughly examined by the public in my Mart. It once belonged to a foreign diplomat who lived in greater luxury than an Indian Rajah. Each article is a jewel that should have a case to itself.

This ROYAL SHOW will be opened to the Public day and night, from Monday 23rd inst.; and full catalogues will be provided. The greatest of auctions will come off on—

FRIDAY 27th MAY

at 7.45 p.m.

In my Mart

566--PIEDAD--566

(Opposite Messrs Gath and Chaves's)

after the public have had five clear days wherein to inspect it.

In this way everybody will have had time to get into his head a proper idea of what the furniture is. I beg of all to attend punctually, as I will infallibly begin the sale at the hour named, and will knock down everything quickly and liberally without paying too much attention to the amount of the bids.

The following is a more or less correct list of the articles to be sold; but those interested will find everything enumerated in the Catalogue.

I invite the Public to visit my Mart on and after Monday 23rd. It will be open every day from 8 a.m. to 10 p.m: and in telligent people will at once see that this will be quite an

Exceptional Sale

and that such an opportunity does not turn up every day in the week.

Particulars

DRAWING-ROOM—All in the grandiose style of Louis XIV's time, with splendid Lamps, curtains, priceless Venetian mirrors, Osler chandeliers (8 lights), fancy chairs. Buhl articles. Grand Piano, Vitrine, Smyrna carpet in one piece, plush columns, walnut fire screen, bronzes and statuary. The gallery of oil paintings is small but select, containing genuine works of art.

ANTE-SALA—A notable set of Louis XVI furniture, all in gold and silk. Fancy chairs, hand embroidered. Marquise chairs (small) of most fanciful design covered in silk plush. Large gilt mirrors, chandelier «bibelots,» etc., etc.

Good taste, art, aesthetecism, elegance, great luxury, splendour, and sumptuous wealth are all united in this regal household furniture It cost more hard cash than any other furniture ever seen in any part of this Republic.

STUDY—Large ministerial table with book case of oak and walnut of Henri Deux style. Regal sofa and English arm-chairs from Maple's (London), curtains and other things, all absolutely exceptional.

DINING ROOM—Large oak and walnut table, Henri Deux style, and splendid French stamped leather chairs, all the very finest that the firm of Krieger can turn out. The other articles in this room are all of the first order, and a bronze chandelier is quite exceptional.

BEDROOM—The furniture in this room (Louis XV) dazzles the beholder and is above all praise. It must be seen. The curtains are of wonderfully fine silk; and the chandelier and other things are worthy of everything else in this princely sleeping room.

GIRLS' ROOM—Precious laquered sets, with curtains and chairs to match all complete.

GUEST'S ROOM—Complete Bachelor's set.

VESTIBULE — Splendid hall furniture, magnificent lamp, and plants.

THE CHANDELIERS are specially recommended, as they are of the very best imported.

The carpets — Smyrna, Moquette and Brussels—are of charming design.

The curtains of all parts of the house, the bronzes and statuary deserve special mention.

To sum up

People of taste should seize this opportunity, as there will not be another like it for many a long day.
